

III Mediterranean Agriculture

A. Characteristics

1. Primarily associated with the region near the Med Sea and places with climates that have hot, dry summers and mild wet winters.

Ex) California, Chile, southern South Africa, South Australia.

2. Farming involves wheat, barley, vine and tree crops, and grazing for sheep and goats.

Ex) Olives, grapes, and figs.

3. Med agriculture can be extensive or intensive depending on the crop.

Ex) Wheat: extensively, Olives: intensively

4. Med farming is both subsistence and commercial depending on where it is practiced.
